5-7 NOVEMBER 2018

AMSTERDAM

THE NETHERLANDS

RME2018 is the 12th conference in the Rapid Methods Europe series dedicated to innovations and breakthroughs in rapid analysis & diagnostics across the agri-food, animal health and healthcare sectors.

RME2018 aims to further strengthen the academia-industry relations and to further disseminate advanced research towards practical applications. Conference topics include, but are not limited to:

- microorganisms (bacteria, viruses, protozoa, parasites)
- chemical contaminants
- substances of emerging concern
- antimicrobial resistance
- mycotoxins and plant toxins
- allergens
- GMOs
- pesticide and veterinary drug residues
- waterborne organisms (algae, fish, plants, etc.)
- nanoparticles
- authenticity, adulteration and fraud
- forensic identification

BUSINESS OPPORTUNITIES

RME2018 offers various business opportunities, including:

- **Sponsoring of the conference**
Benefit from excellent name recognition by sponsoring the conference.
- **Exhibiting at the conference**
Parallel to the conference a commercial exhibition will be organised in which presentations of equipment, products and services related to rapid analysis & diagnostics are given. Participants of the conference have ample opportunity to visit the exhibition during the various breaks.

CALL FOR ABSTRACTS

The members of the Advisory Committee of **RME2018** are inviting authors to submit abstracts for **ORAL PRESENTATIONS** and/or **POSTERS**.

Important deadlines

Submission deadline for oral presentations: **31 March 2018**
